

AI Song Quick-Start Guide for Kids

This quick-start guide will help you create fun, kid-friendly songs using ChatGPT for lyrics and Suno for music. Follow the simple steps below!

Step 1: Write the Lyrics with ChatGPT

Copy and paste this prompt into ChatGPT:

Write kid-friendly lyrics for a silly song about a dancing dinosaur who loves to eat cookies. Include rhyme and a simple chorus: "Dance, Dino, dance, eat your cookie with a smile." Also suggest a tempo (BPM) suitable for kids' sing-alongs.

Tip: Ask ChatGPT for a catchy song title, BPM, and verses + chorus.

Step 2: Turn It into Music with Suno

Go to <https://suno.com> and select Custom Mode.

Paste this into Suno:

Genre: Upbeat children's pop

Tempo: [Use BPM from ChatGPT] BPM

Mood: playful, bouncy

Instruments: cheerful ukulele, light percussion, bright bells

Vocals: clear kid's voice, friendly and expressive

Lyrics:

[Paste full lyrics from ChatGPT here]

Extra Fun Challenges

- Change the genre (try rock, reggae, or a lullaby)
- Record your own voice and add AI music
- Host a '5-Minute Song Challenge' with friends or students
