

AI4KidsDaily: Zara Zap Trading Card Workbook

Create your very own trading card character! Use the sections in this workbook to design your hero (or villain), their powers, weaknesses, and backstory. You can draw by hand or use AI tools like ChatGPT & image generators to bring your creation to life.

Basic Prompt (For ChatGPT):

Create a trading card character named Zara Zap. Include powers, weaknesses, a special move, and a short backstory. Keep it fun and imaginative for kids!

Advanced Prompt (For ChatGPT):

You are designing a kid-friendly trading card character in the style of Pokémon or Yu-Gi-Oh. The character's name is Zara Zap. Provide: (1) Character type, (2) 2–3 unique powers, (3) 1–2 weaknesses, (4) a named special move with a fun description, (5) short backstory, and (6) a points or level rating. Keep it balanced so they are not overpowered.
